INTRODUCTION

This collaboration conference provides an ideal opportunity for researchers to present their projects and share their experiences in the field of education and psychology. This conference also serves as a convenient platform to discuss latest developments in field of education and psychology researches. In addition, the conference offers a great opportunity to refine thoughts, share concerns, and receive constructive comments in a supportive environment.

CONFERENCE OBJECTIVES

- To foster intellectual and professional collaboration towards psychology and education enhancement to shape future generation of both countries, Malaysia and Indonesia, respectively.
- To establish a research network of academics and educators towards strengthening the exchange of information on the development of current issues in education.
- To enrich the field of educational and psychology researches in order to become the point of reference towards strengthening the quality of Malaysian and Indonesian education systems.
- To present a range of postgraduate researches conducted which include the areas of education and psychology from both countries, to draw cross-disciplinary connections and reflect on the nature of academic works and researches.
- To provide postgraduate students with unique opportunities to practice delivering papers and develop other presentation skills – such as creating more effective visual aids and navigating questions posed by the audience – as preparation for their viva voce.

ORGANISER

Faculty of Psychology and Education, Universiti Malaysia Sabah in collaboration with Universitas Borneo Tarakan

A SPECIAL VENUE: UMS: KOTA KINABALU,SABAH

Universiti Malaysia Sabah (UMS) is an institution of higher education that produces human resources, experts and professionals in a variety of fields with the focus on the quality of graduates, quality of institutions, and quality of the overall system.

Sabah is situated in the North of Borneo. The state is full of attractions and experiences that make it the breathtaking part of Borneo. Sabah is blessed with a diverse landscape of tropical forests, mountains, and pristine seas and known for great natural treasures which include Danum Valley Conservation Area, Tabin Wildlife Reserve and Maliau Basin. Some of Sabah indigenous flora and fauna can only be found in this part of the world. Sabah certainly is the perfect learning platform for Bio-cultural Diversity and Conservation.
